PROFILE

Software developer passionate about creating useful digital solutions and developing web applications. Currently pursuing a B.E. in Computer Science and Engineering, with hands-on experience building full-stack systems across rental management, examination seating, library circulation and emergency blood support. Comfortable turning requirements into working interfaces, APIs and data flows, and continuously improving programming and problem-solving skills.

EDUCATION

B.E. Computer Science and Engineering — 2025 — 2029
Francis Xavier Engineering College
Currently pursuing.

Higher Secondary Certificate (HSC) — 2023 — 2025
MDT Hindu College Higher Secondary School

Secondary School Leaving Certificate (SSLC) — 2021 — 2023
Kings Matric School

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (DOM, responsive UI, animation)
Backend	Node.js, Express.js, REST APIs, authentication and sessions
Database	Supabase, Firebase, MySQL
Programming	Python, C, Java
Other	QR code integration, problem solving, teamwork

SELECTED PROJECTS

RentMate — Rental Management Platform — Live project
Node.js · Express.js · MySQL · JavaScript
Renter payment management with monthly receipt visibility, maintenance/problem requests and owner communication.

Smart Examination Hall Seating Management System — Academic project
Node.js · Express.js · MySQL · JavaScript
Automatic seating arrangement from Excel uploads, hall capacity management, anti-cheating constraints, roll-number search and invigilator reports.

Smart Library Management System — Academic project
Node.js · Express.js · Supabase · QR Code
Unique QR identity for every book copy, issue/return workflows, student and librarian roles, fine calculation and QR-based tracking.

AI-Based Blood Bank Management System — Academic project
HTML5 · CSS3 · JavaScript · QR Code
Blood availability tracking, hospital requests, nearby emergency donor discovery, QR-based donor information and emergency support.

CERTIFICATIONS

- Programming in Java
- Basic Power BI
- Soft Skills and Communication Skills Training

ACHIEVEMENTS

- 2nd Prize — Hackathon
- 1st Prize — Inter-college Cricket Competition
- Participated in a Technical Symposium (Paper Presentation)
- Member of NSS and NCC
- Organised cultural and technical events

INTERESTS

Data structures and algorithms, web development, backend engineering, problem solving, chess, cricket and reading.
